Dear Tony,

Thank you for the wonderful tour. I enjoyed your school immensely and it was the first tour of a Charter school I had an opportunity to see in person. I was pleased to see that it was very much similar to any school I have attended. Although, all students were actively engaged, I was very pleased to see the resource programs and the use of assistive technology being used to reinforce student independence and self-paced instruction. I thoroughly enjoyed your student's explanation of how they were using the assistive technology to aid their instruction.

It was clear from your student's explanations of how they were using the devices that they are benefiting from them and the educational materials they were working with.

Again, I am always at your disposal. Congratulations and thank you for a wonderful tour.

Sincerely,

Steven Pasternak
County Supervisor of Child Study
